

GROW·SOLDIER

ORGANIC FERTILIZER DERIVED FROM PLANTS

Organic Grow Fertilizer

WHAT IS GROW·SOLDIER?

Grow-Soldier **respects the spirit of Mother Earth** by using everything she provides, without wasting the precious treasures that she offers us. So, in order to create Grow-Soldier, we make the most of useful ingredients that are typically discarded after the organic sugar beet production.

This is a growth liquid fertilizer that accompanies us during the whole cycle, from the seedling to the end of the flowering. The secret is in the high-quality, no-residue formula that **combines extremely concentrated molasses and the right balance of NPKs**.

As the plant grows and develops, the **slow release nitrogen** allows her to feed according to her needs, while the **high content in sugars** supports a nice population of microorganisms that pair with the plant from the soil. A whole ecosystem containing millions of microscopic living beings working together to help us in our grow.

Grow-Soldier provides an optimal and nutritious home for our plants, much like the one their ancestors found in the rich Jamaican lands.

Therefore this is an **organic and natural fertilizer, free of unwated chemical substances**. We know you won't settle for less.

APPLICATION

Grow-Soldier is suitable for all mixtures of substrates, mediums and all growing methods.

Water 	Dose 
Regular watering	1-4 ml per litre of water

SETTING	PHASE	FUNCTION
 INDOOR	 GROWING	NPK
 OUTDOOR	 BLOOMING	NUTRITION

CAUTIONS AND WARNINGS

Keep out of the reach of children.
Do not swallow.
Use following the instructions.

HOW TO USE IT

Grow-Soldier is a complete growth fertilizer. It can be used during the whole growing cycle.

We can start applying it when our plant is about 10-15cm tall and already shows its first leaves. We continue its application until the end of the flower production.

FORMATS
250ML, 1L, 5L

FEEDING PLAN

Follow these doses when using:

LIGHT-REBEL or **COCO-KAYA**
