SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

- General notes**

When in doubt or if feeling unwell seek medical assistance. Show the safety data sheet and label to the physician. No action shall be taken involving any personal risk or without suitable training. When it is suspected, that there may still be harmful vapours/fumes present in the air, respiratory protection (mask; self contained breathing apparatus) must be used. Avoid contact with skin, eyes and clothing.
- Following inhalation**

Remove patient to fresh air - move out of dangerous area. Keep at rest in a position comfortable for breathing. If symptoms develop and persist, seek medical attention. In case of unconsciousness bring patient into stable side position and seek medical attention. If breathing is irregular or respiratory arrest occurs provide artificial respiration.
- Following skin contact**

Wash affected skin areas immediately with plenty of water and soap. Take off all contaminated clothing. If symptoms develop and persist, seek medical attention.
- Following eye contact**

Immediately flush eyes with running water, keeping eyelids apart. After 5 minutes of rinsing, remove contact lenses, if present, and continue rinsing. If irritation persists, seek professional medical attention.
- Following ingestion**

Rinse mouth with water and drink 2-3 dl water in sips. Never give anything by mouth to an unconscious person. In case of doubt or if feeling unwell seek medical help. Show the physician the safety data sheet or label. In case of doubt or if feeling unwell seek medical help.

4.2 Most important symptoms and effects, both acute and delayed

- Following inhalation**

Excessive exposure to spray mist, fog, or vapours may cause respiratory irritation.
- Following skin contact**

Contact with skin may cause irritation (redness, itching).
- Following eye contact**

Strongly irritates the eyes.
- Following ingestion**

May cause nausea/vomiting and diarrhea. May cause abdominal discomfort.

4.3 Indication of any immediate medical attention and special treatment needed

Treat symptomatically.
